RESPONSE TO RESTRICTION REQUIREMENT

Honorable Commissioner for Patents
Washington, D.C. 20231

The Office Action of March 19, 2002, in the nature of a requirement for restriction, has been carefully reviewed. Favorable consideration is respectfully requested.

Restriction has been required between what the Examiner considers to be five patentably distinct inventions, namely,

Group I directed to antibodies to SP-22, presently comprising claims 1-2;

Group II, drawn to an assay for SP-22 levels, presently comprising claims 3-6;

Group III, drawn to a method of treating with antibodies, presently comprising claims 7-8;

Group IV, drawn to SP-22 or functional fragments thereof, presently comprising claims 9 and 12;

Group V, drawn to a method of treating with SP-22 or fragments thereof, presently comprising claims 10-11.

Applicants hereby provisionally elect, with traverse and without prejudice, claims 1-2, Group I, directed to antibodies to SP-22.

RECEIVED

This restriction requirement is traversed on the basis of MPEP Section 803, second paragraph, which requires that there be a substantial burden in examining plural groups, even if the restriction requirement is otherwise correct. It is respectfully submitted that different classification for the groups is largely immaterial, since it is assumed that the Examiner will search online rather than manually, and that a search which encompasses the medium would necessarily include methods of using the medium. Since there appears to be no serious burden, the restriction requirement should be withdrawn, and such is respectfully requested.

If the restriction requirement is maintained, it will be clear on the record that the PTO considers the two groups to be patentably distinct from one another *i.e.*, *prima facie* non-obvious from one another. This means that a reference identical to the one group would not render the other group *prima facie* obvious.

Favorable consideration is respectfully requested.

Respectfully submitted,
BROWDY AND NEIMARK, P.L.L.C.
